RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
Washington, DC 20231

Dear Sir:

In response to the Restriction Requirement dated September 18, 2002, Applicant hereby elects, with traverse, Group II, claims 99-101 to prosecute in the above-identified patent application.

It is respectfully submitted that the claims of Group II and III are not properly separated. The Examiner can see that the operations (a) through (c) in both independent claim 99 and independent claim 102 are essentially identical. The only real difference comes about in the fact that claim 102 recites code for performing the various method steps recited in claim 99. Since the inventive concepts of both groups is directed to computational procedures (note that method claim 99 recites computationally manipulating and computationally selecting), any search for the methods of Group II must necessarily embody a search of the computer program products of Group III. It is respectfully submitted that it would be impossible to properly search the art of one of these groups independently of the other. It is also respectfully submitted that it would not

constitute an undue burden to examine both Groups II and III together. Withdrawal of the Restriction Requirement with respect to Groups II and III is respectfully requested.

If any fees are due in connection with the filing this Response to Restriction Requirement, the Commissioner is hereby authorized to charge such fees to Deposit Account 500388 (Order No. MXGNP001X1).

Respectfully submitted,

BEYER WEAVER & THOMAS, LLP
